

PROJECT JUPITER

Thousands of jobs and tremendous opportunity: We would love to join your community

Project Jupiter is more than critical infrastructure. It's an engine for local opportunity, creating local jobs, investing in workforce training, and partnering with schools, colleges, and technical programs to prepare the next generation. This project strengthens the digital economy, while directly supporting the people and communities who power it.

As demand for digital infrastructure grows, so does the opportunity for the Doña Ana community.

Local Jobs and Careers

Project Jupiter will open doors to careers across construction, facility operations, IT, logistics, and administration, generating high-quality jobs in Doña Ana to include:

**4,000 CONSTRUCTION JOBS
ONSITE DURING PROJECT
BUILDOUT**

**UP TO 1,500 JOBS ONSITE OR IN THE COUNTY
ONCE CONSTRUCTION IS COMPLETE.**

These full-time positions will offer competitive salaries averaging **\$75,000–\$100,000**, along with comprehensive benefits. Opportunities will be accessible to individuals with a wide range of educational backgrounds, from high school diplomas and technical certificates to associate's and advanced degrees.

Skills for the Future:

To build a future-ready workforce and fill permanent roles, Project Jupiter will partner with Doña Ana Community College, NMSU and Doña Ana Public Schools to prioritize training and upskilling in:

- ✓ Technical expertise with **servers, networks, power, cooling, and structured cabling.**
- ✓ **Operational discipline** to ensure uptime, follow procedures, and document work.
- ✓ Problem-solving skills to **troubleshoot issues and restore systems quickly.**

Workforce Development and Local Hiring

Project Jupiter is investing in Doña Ana's future by strengthening local talent pipelines and opening pathways to long-term careers. As part of this commitment, Project Jupiter will:

- ✓ Partner with **Doña Ana Community College, NMSU and Doña Ana Public Schools** to create hands-on training and career-focused curriculum.
- ✓ Establish a local education fund to support **local high schools, community college, and universities** in preparing tomorrow's workforce.
- ✓ Prioritize **local hiring and skill-building** so that more residents can grow their careers right here in the community.

Enabling Long-Term Economic Impact

Project Jupiter is more than an investment in infrastructure. It's an investment in Doña Ana's people and future and will provide residents with stable employment, skill-building opportunities, and lasting economic growth across the region.
